

2012 CRHC MEMBERSHIP CAMPAIGN

Our goal is simple: ensure high quality healthcare services are available in rural communities.

Over the past 20 years, CRHC has become our state's most trusted resource for rural healthcare. In the current economic landscape, it is more important than ever that we continue to support and advocate on behalf of rural healthcare and the safety net community. We remain loyally committed to ensuring our members have the resources and support they need to keep their communities healthy and vibrant. CRHC is well positioned to provide 20+ more years of support to ensure access to healthcare for all Coloradans, and we recognize that our work would be impossible without the dedication of our loyal members.

Member benefits coincide with four key CRHC objectives:

educate

We offer educational conferences, trainings, workshops, and support services to facilities and communities, such as coding, billing, quality improvement, health information technology support, and grant writing.

advocate

We advocate on behalf of rural health to change state and Federal policy. We influence authorities on rural legislation to establish public policy that strengthens the rural healthcare system and increases access to care.

collaborate

With our extensive network of partners, we provide advice, assistance, referrals, and support for rural health needs. We supply organizations with funds, such as loan repayment and scholarships; Federally-granted medical equipment; and technical assistance grants.

innovate

CRHC is one of only three State Offices of Rural Health organized as an independent, nonprofit organization, allowing us to develop innovative programs for rural Coloradans. We leverage technology, such as our website, e-newsletters, and webinars, to keep our members connected, heard, and informed.

educate. advocate. collaborate. innovate.

cultivate rural health
