

Swing Bed Training Program for Colorado CAHs

In order to assist Critical Access Hospitals with implementing swing bed programs and conducting case management activities, and in order to promote the appropriate use of skilled services, the Colorado Rural Health Center created a Swing Bed training program and manual.

Swing Bed Training Program:

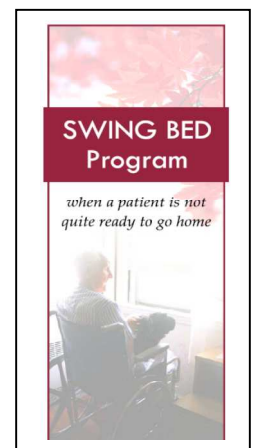

- On-site or webinar training options
- Geared toward physicians, clinical staff and case managers
- Facilitated by experienced RN consultants
- Tailored to meet specific needs

Swing Bed Manual

Swing Bed Manual:

- Comprehensive overview of Medicare regulations, including:
 - Admission Criteria
 - Documentation Requirements
 - Instructions for Transfer
 - Clinical Services Required
- State-specific Medicaid regulations
- Resource links and sample documentation forms
- Includes laminated “Quick Reference Guide”

Patient Information
Brochure

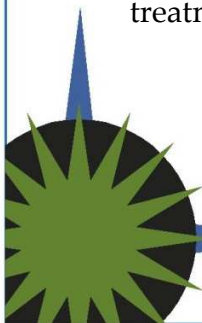

Why Use Swing Beds?

- Utilizing swing beds in Critical Access Hospitals provides a viable option at the local community level for patients in need of skilled care.
- Critical Access Hospitals are reimbursed at a cost-based level for Medicare swing bed services. In 20 states, increased Medicaid reimbursement is available as well.
- Swing bed usage for rehabilitation can strengthen relationships between Critical Access Hospitals and larger tertiary facilities subject to Inpatient Rehab Facility rules that limit treatment for specified conditions.

“The training provided our staff with a better understanding of Swing Beds, and the specific examples were especially helpful.”
Critical Access Hospital, Director of Nursing

**CRHC subsidizes the costs for these Swing Bed resources for Colorado CAHs through its funding from the Medicare Rural Hospital Flexibility grant.*

The Colorado Rural Health Center (CRHC) serves as Colorado’s not-for-profit State Office of Rural Health. Funded by grants, donations, and investing members, CRHC has administered programs and services since 1991 to assist rural communities in addressing rural healthcare issues. With an experienced staff, CRHC provides comprehensive assistance with recruitment and retention, billing and reimbursement for hospitals and clinics, community needs assessment, strategic planning, Emergency Medical Services (EMS), board of directors development, quality improvement, and fundraising. CHRC is the recipient of the HRSA’s State Office of Rural Health Grant, and the Medicare Rural Hospital Flexibility Grant.
