

CREATE

Colorado Resource for Emergency And Trauma Education

The CREATE program is managed by the Colorado Rural Health Center and funded by the Colorado Department of Public Health and Environment

The CREATE grant program has maximum funding amounts, and will pay no more than 50% of the following amounts, unless a financial waiver has been submitted to and approved by CRHC. These prices include tuition, books, and fees for all courses. Any reasonable living expenses or travel costs may be funded above the listed amount, at the current State rate for mileage reimbursement for travel costs.

Maximum amounts CREATE will pay towards the following training courses:

All costs over and above these amounts will be paid by the grantee. In the event the actual cost of the training is less than the listed amount, enter the actual cost of the course into your grant application.

This is not an all-inclusive list of training and education courses that the grant program will support. For courses other than those listed above, the grant application should reflect appropriate and reasonable costs.

*EMR –While First Responders are not currently required to complete and pass the National Registry Examination, all students are encouraged to do so. The Standard Course Price was set with the intention to help cover a percentage of that cost.

For in-state conferences, CREATE will only fund tuition, lodging (at the conference room rate), travel, and registration fees. Out-of-state conferences will be funded on a case-by-case basis. Meals and banquet costs will not be funded for any conference event.

If you would like to see your conference listed above, please submit your request to Shelly Collings, grants manager at the Colorado Rural Health Center at sc@coruralhealth.org. The review committee will discuss and approve on a case by case basis.
