Final Report Mt. San Rafael Clinic

Trinidad, CO

I. Narrative

A. Results/Outcomes

1. With the upgrade of the telephone system the Mt. San Rafael Clinic has improved access to care due to the enhanced communication with the new system. Also, the upgraded waiting area furnishing has been an awesome change and our patients are elated at the new atmosphere.
2. Without these grant funds we would not have been able to do this project so it has impacted the 22,751 clinic visits we have annually and has enhanced communication for 990 telephone calls we receive daily.
3. The collaboration with the local Hospital has been great with the new telephone system. It interfaces with their system, so the ease of use for all staff and physicians has been tremendous.

- B. **Photographs and Testimonials**—The Mt. San Rafael Clinic hosted a Business After House for the public to join in a ribbon cutting celebration and open house to show off our new upgrades to our community.

New telephones

C. Future Plans

1. The project is complete and no further funds are needed to sustain this project.
2. I am open to communicate with any other clinic facilities to help in any way but have no current plans.

D. Other Comments

1. The Mt. San Rafael Clinic has had an awesome experience with this grant opportunity and I have no further comments other than keep doing what you are doing for rural Coloradans.

II. Financials

- 1.
