

## IS700.a

### Deliverable for Rural Health Clinics

#### Pathway to IS700.a course on the Web.

*VALUED AT \$250 for each certificate!* (We need two certificates, one from each of two different staff members.)

1. Go to:

<http://training.fema.gov/EMIWeb/IS/is700a.asp>

2. Then, on the right hand side, click on: “Interactive Web-based course” and take the course.
3. After you have completed the course, on the right, click on: “Take the IS700.a final exam”.
4. Email your certificate of completion to [rs@coruralhealth.org](mailto:rs@coruralhealth.org)

NOTE: It is expected that the course will take 3 hours or less. I haven’t taken this specific course, but generally with courses of this type, you can start the course and then if you need to stop for a while, you can and then continue later where you originally left off.
